I. Signing On

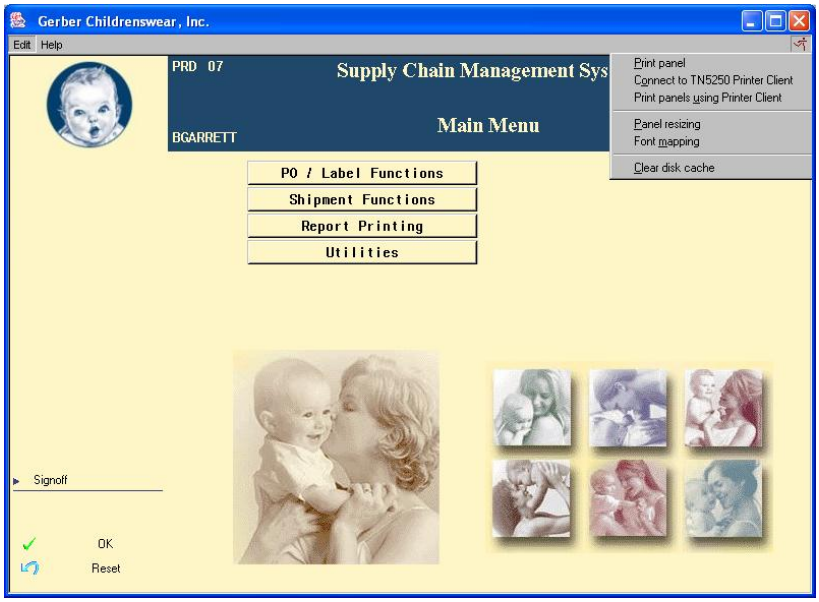
You will be given a unique **Username** and **Password**. Do NOT share this information with anyone. Your **Username** and **Password** is not case sensitive. If you key your Password incorrectly three times, your **Username** will be disabled and you must contact our Technical Support.

I. Signing On

A. Starting Printer Client

The printer client is used to print Barcode Labels directly to your barcode printer as defined on your local PC (see Hardware/Software Requirements). Click on the “little man” located at the top right of your screen and you will see the drop down menu as shown below. Then, click on **Connect to TN5250 Printer Client**.
Note: this can be done from any screen. You do not need to Sign on first.



I. Signing On

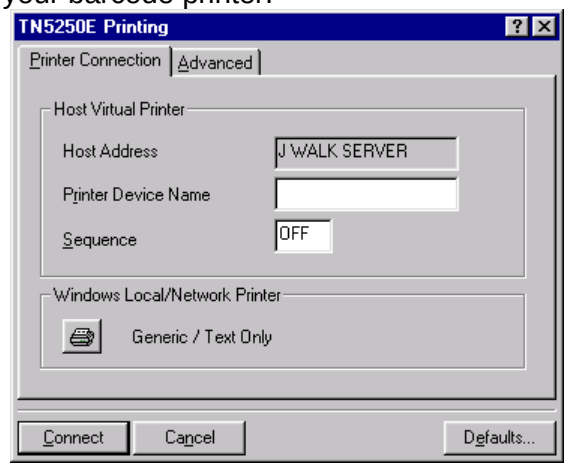
A. Starting Printer Client

You will get a pop up window as shown below.

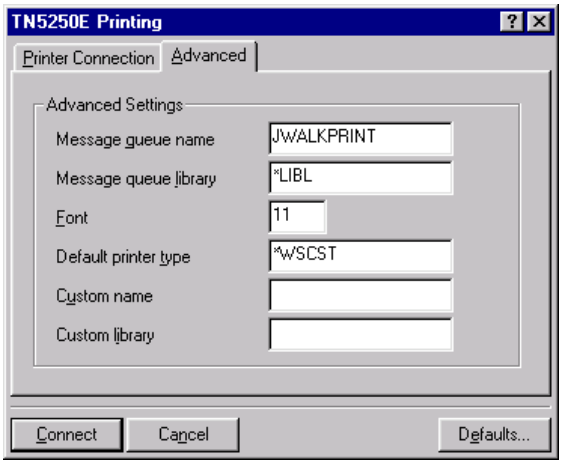
On the **Printer Connection** tab in the **Printer Device Name** field, you will key in the printer name. The printer name will be assigned to you when you received your User ID and Password.

WARNING: NOTE: IT IS VERY IMPORTANT THAT THE PRINTER DEVICE NAME IS CORRECT FOR THE USER WHO IS SIGNING ON TO THE SYSTEM. The User ID and the Printer Device name are very similar. An example of a User Id: ALOWE Printer Device Name: SALOWE. If wrong printer client is started you will not get your barcode labels.

In the **Windows Local/Network Printer** section, make sure you are pointing to the **Generic/Text** printer driver you set up for your barcode printer.



Next, click on the **Advanced** tab. In the **Message queue name** field key **JWALKPRINT**, Default **Printer Type** field, key ***WSCST**.

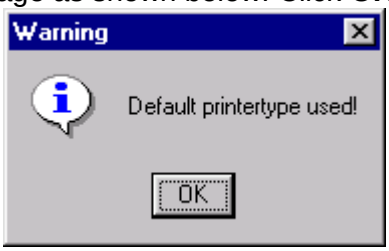


Click on **Connec**t.

I. Signing On

A. Starting Printer Client

You will get an informational message as shown below. Click **OK** to continue.



I. Signing On

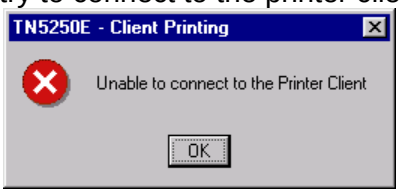
A. Starting Printer Client

In the right bottom corner of the task bar, is a printer icon. Hold your mouse over icon to determine status of printer client.

This is an active printer. You are ready to print barcode labels.

This is an inactive printer. You must start printer client.

If you get this message when you try to connect to the printer client:



Look to see if you have the printer on your start menu.
If you do not, go to the other Internet browser screen and scroll down to bottom. Click on **Start the Printer Client**. Then, repeat the steps for starting Printer Client.

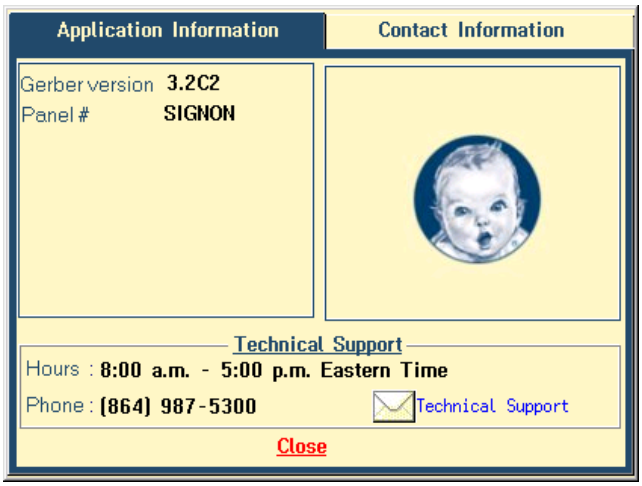
B. Menu Bar – Contacting Gerber Childrenswear, Inc.

To contact Gerber Childrenswear, Inc. Technical Support. Click **Help** on the **Menu** bar on any screen. Click **Application Information**. Click **Contact Information** tab. You may email by clicking **Technical Support** from **Application Information** or **Contact Information** tab or you may call the number listed. Be sure to include a detailed description of your problem and your user name. If you are having problems with a screen, please include the **Gerber version #** and **Panel #** which can be found on the **Application Information** tab.

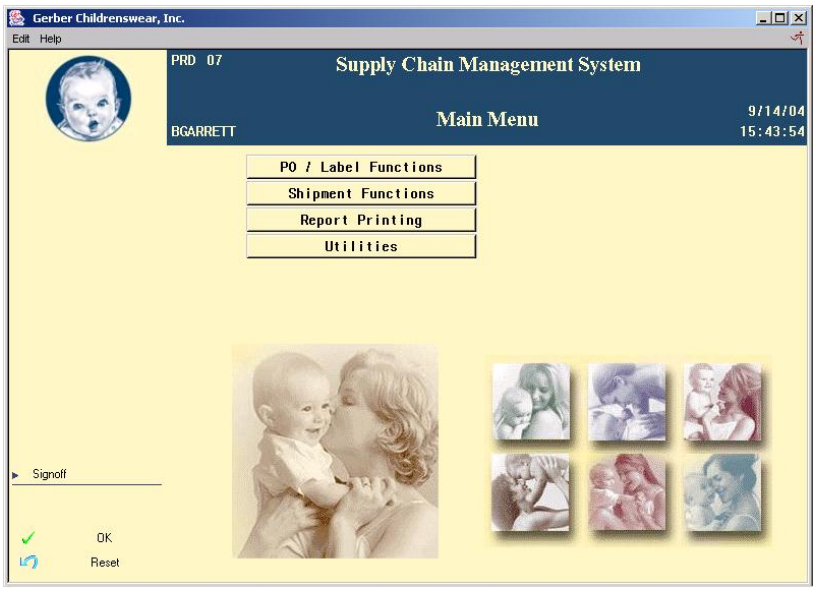
Click on Contact Information Tab

Click on Application Information Tab



II. Main Menu

Upon successful Signon you will be presented **Supply Chain Management System** menu.



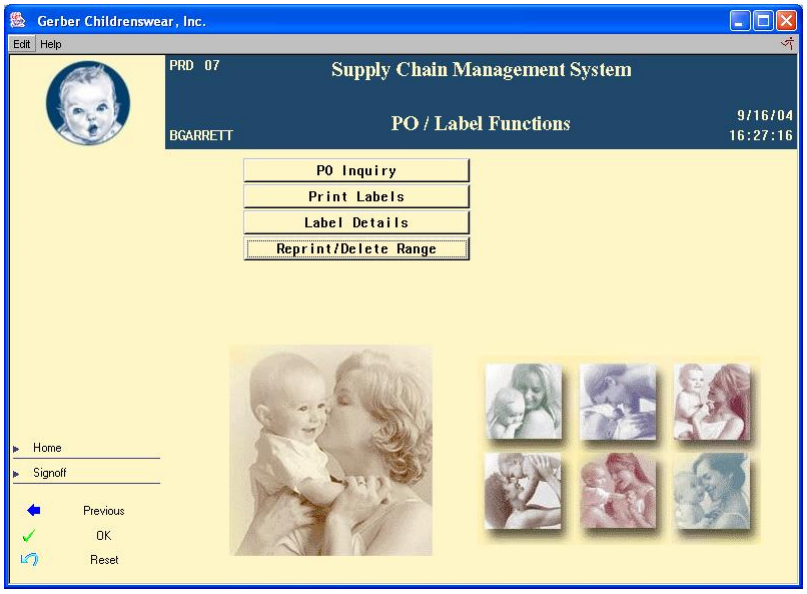
Click **PO / Label Functions** button to access the **PO / Label Functions Menu**.

Click **Shipment Functions** button to access the **Shipment Functions Menu**.

Click **Report Printing** button to printing your paper copy of the Purchase Order. (See PO/Label Functions Menu – PO Inquiry – PO Details button.)

Click **Utilities** button to change your printer.

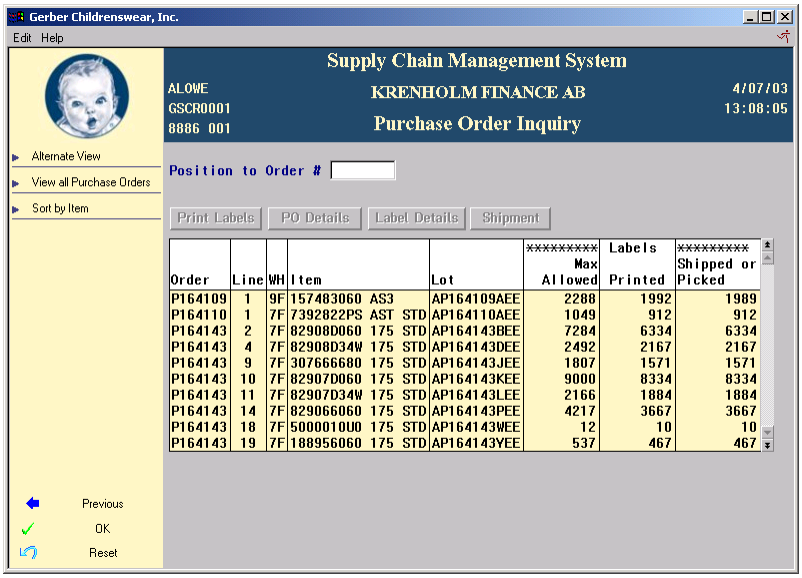
III. PO / Label Functions Menu



III. PO / Label Functions Menu
A. PO Inquiry

Purchase Order Inquiry has many functions. You will view your purchase order (**PO Details**), print your labels (**Print Labels**), and determine what labels have been printed and the status of the labels (**Label Details**).

Note: The Purchase Order will remain on this screen until goods are fully received at Gerber's Warehouse.



Order	Line	WH	Item	Lot	********** Max Allowed	Labels Printed	********** Shipped or Picked

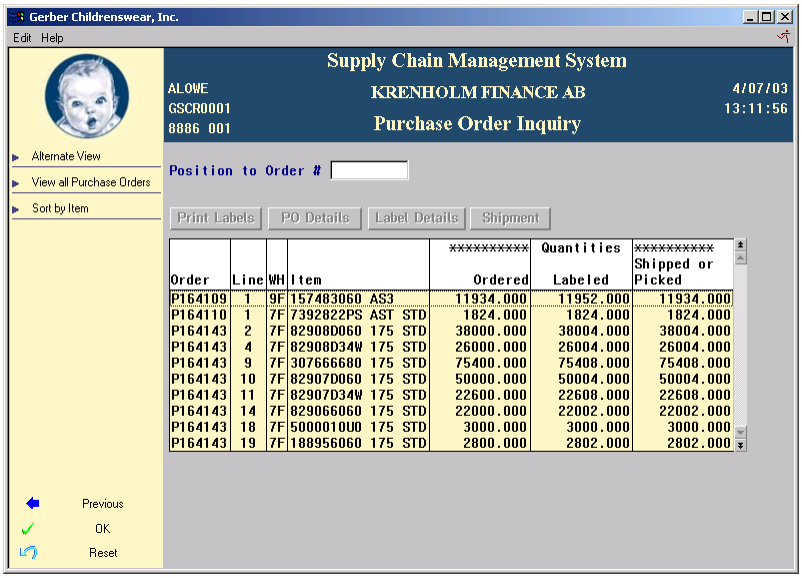
P164143	19	7F	188956060 175 STD	AP164143YEE	537	467	467

When you take the option, you will see all open Purchase Orders. This will be the default view.

The columns under ********** Labels **********
"Max Allowed" = The number of labels you will be allowed to print to fulfill the PO/Line/Item (includes some extra labels). You may not print as many labels as allowed.
"Printed" = The number of labels you have printed for the PO/Line/Item.
"Shipped or Picked" = The number of labels you have added to a current shipment plus the number of labels you have previously shipped for the PO/Line/Item.

III. PO / Label Functions Menu

A. PO Inquiry



Order	Line	WH	Item	********** Ordered	Quantities Labeled	********** Shipped or Picked
P164109	1	9F	157483060 AS3	11934.000	11952.000	11934.000

P164143	4	7F	82908D34W 175 STD	26000.000	26004.000	26004.000
P164143	9	7F	307666680 175 STD	75400.000	75408.000	75408.000
P164143	10	7F	82907D060 175 STD	50000.000	50004.000	50004.000
P164143	11	7F	82907D34W 175 STD	22600.000	22608.000	22608.000
P164143	14	7F	829066060 175 STD	22000.000	22002.000	22002.000
P164143	18	7F	5000010U0 175 STD	3000.000	3000.000	3000.000
P164143	19	7F	188956060 175 STD	2800.000	2802.000	2802.000

Use the Alternate View button on the left of the screen to show **Quantities**. **Quantities** are measured in Purchase Order unit of measure (UOM).

The columns under **Quantities**:

Ordered = The Purchase Order quantity for the PO/Line/Item.

Labeled = The summed PO UOM quantity from the labels you have printed for the PO/Line/Item.

Shipped or Picked = The summed PO UOM quantity from labels you have added to a shipment plus the previously shipped quantity for the PO/Line/Item.

III. PO / Label Functions Menu

A. PO Inquiry

1. Print Label button

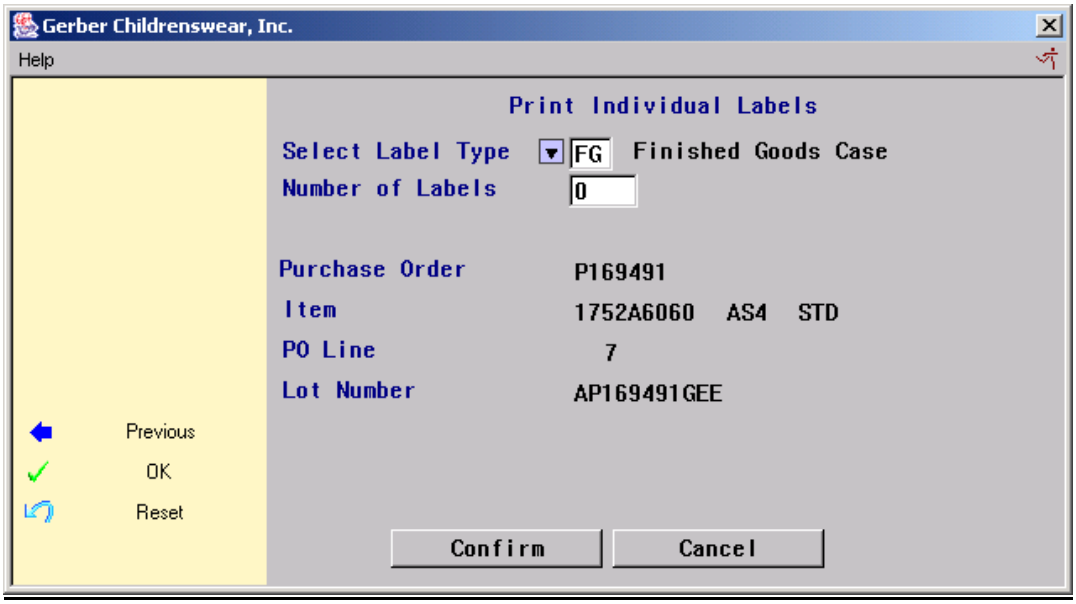
Select the **Order/Line/Item** you wish to print labels for and click **Print Labels**. You may also print labels by clicking the **Print Labels** button on the **PO / Label Functions** menu and the **Shipment Functions** menu**.** Printing Labels this way is the easiest. (See III.B Print Labels section for other labels that can be printed.

NOTE:
When printing labels, you will only be allowed to print up to the number of labels listed under the column **Max Allowed**. If you should have the need to exceed to PO quantity, you must contact your Buyer at Gerber Childrenswear, Inc. The buyer must approve your request and update the PO before you can print extra labels.

You will key in **Number of Labels**.

NOTE:
You could select a different label type by clicking the prompt: ▼. See Label Print section for different label types.

Click **Confirm**. Verify the quantity. Click **Confirm**.



III. PO / Label Functions Menu

A. PO Inquiry

2. PO Details button

Select the **Order/Item** you wish to see Purchase Order details for and click **PO Details** button. This screen looks very much like the printed Purchase Order that you received via fax, mail or email from Gerber Childrenswear, Inc.

Once on the **PO Details** screen, you may also print a paper copy of the Purchase Order by clicking on **Print** in the upper left corner.

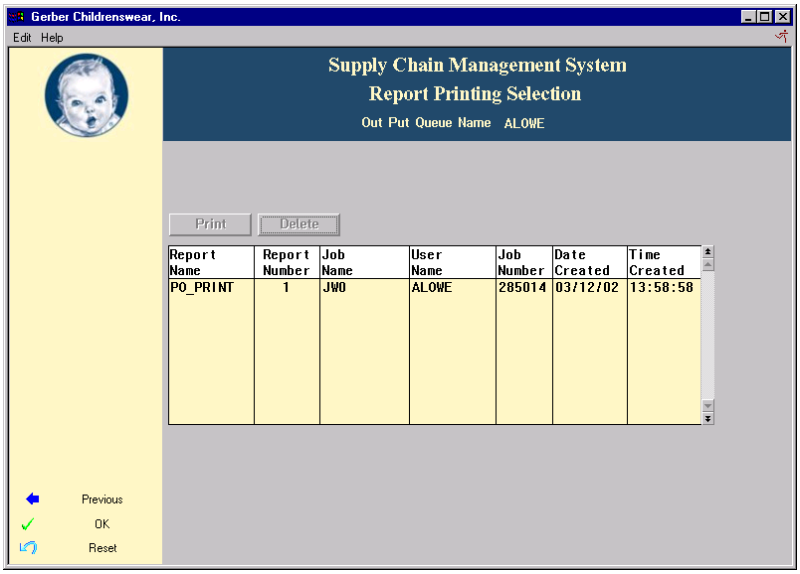
III. PO / Label Functions Menu

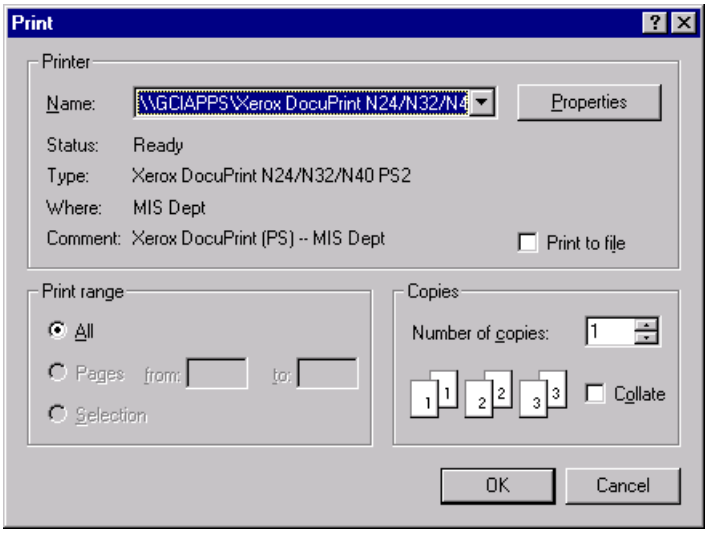
A. PO Inquiry

2. PO Details button

Select the Report Name **PO_Print** and click **Print** button.



You will be prompted to select the printer. This can be any printer known to your PC other than the barcode printer. Click **OK** button.

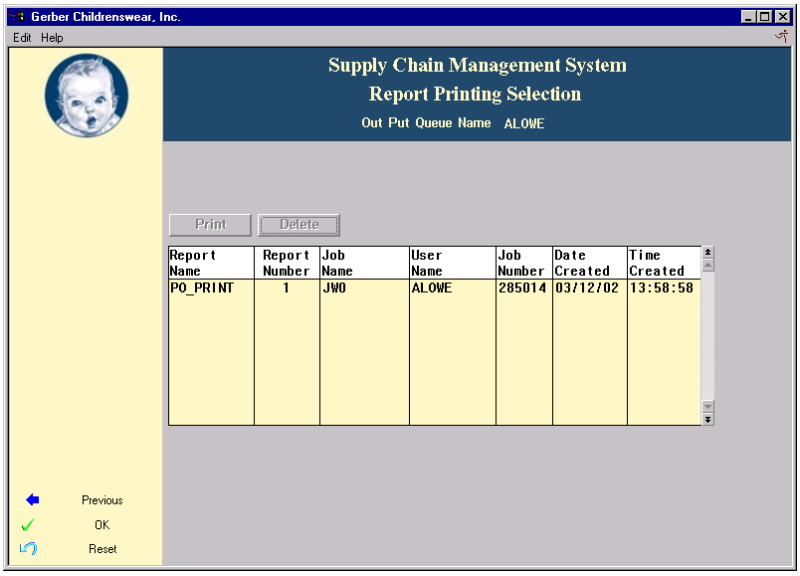


III. PO / Label Functions Menu

A. PO Inquiry

2. PO Details button

Once you print the **PO_Print**, you should delete by selecting and clicking **Delete**.



Then, click **YES**. You can reprint the Purchase Order as many times as you want, so do not be afraid to delete.

III. PO / Label Functions Menu
A. PO Inquiry
3. Label Details button

Select the **Order/Item** you wish to see label details for and click **Label Details** button. You may also see **Label Details** by clicking the **Label Details** button on the **PO / Label Functions** menu or the **Shipment Functions** menu.

The purpose is to show you all labels that have been printed for the selected PO/Line/Item to determine the label status.

Note: All of the functions are not available for each label. The status of the label determines what functions are available.

Columns:

The red "*" in the far left column means this is a master label and there are other labels inside associated with the master. To see the associated labels, select **Detail Labels** button.

Label = The serial number of the label that was printed.
Item = The item associated with the label.
Label Type =
MP = Master Pallet Label
FG = Finish Goods Case Label
MC = Master Carton Label
Shipment = The shipment number assigned when you build shipment.
Label Status =
"LABELED" = The label has been printed.
"SHIP PEND" = The label is on a shipment that has not been sent.
"SHIP CLOSE" = The label is on a shipment that has been closed.
"SHIPPED" = The label is on a shipment that has been sent.

NOTE:
You can print or delete a Label in status "LABELED"

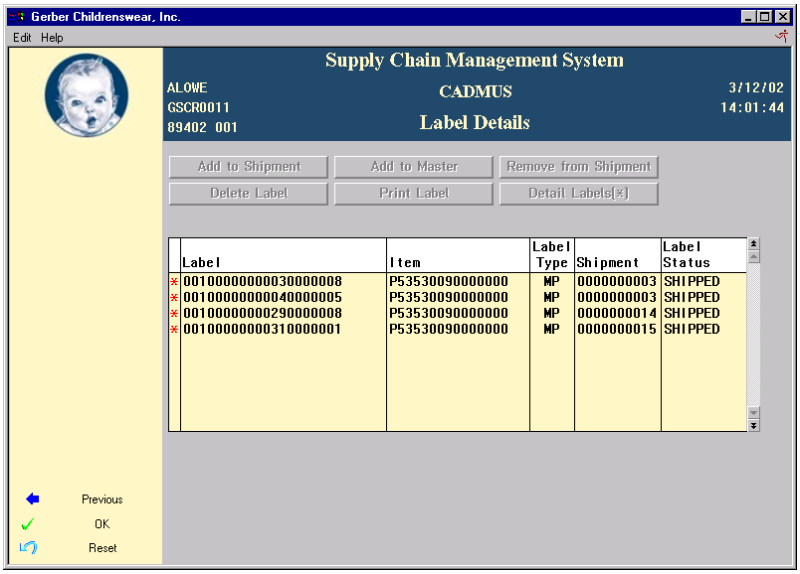
"SHIP PEND" labels can be removed from a shipment. This status will change to "LABELED". The label can be 1) Printed, 2) Deleted 3) added to a master pallet or master carton.

"SHIP CLOSE" and "SHIPPED" labels cannot be changed.

III. PO / Label Functions Menu

A. PO Inquiry

3. Label Details button

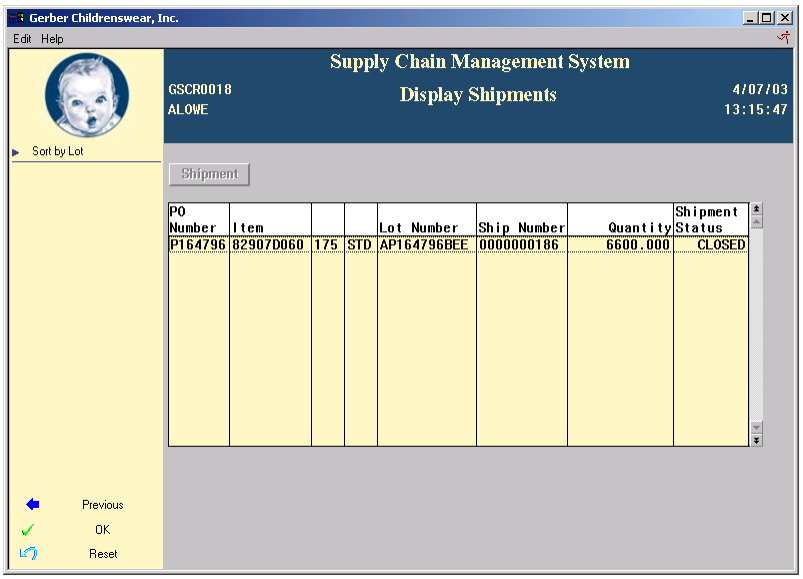


III. PO / Label Functions Menu

A. PO Inquiry

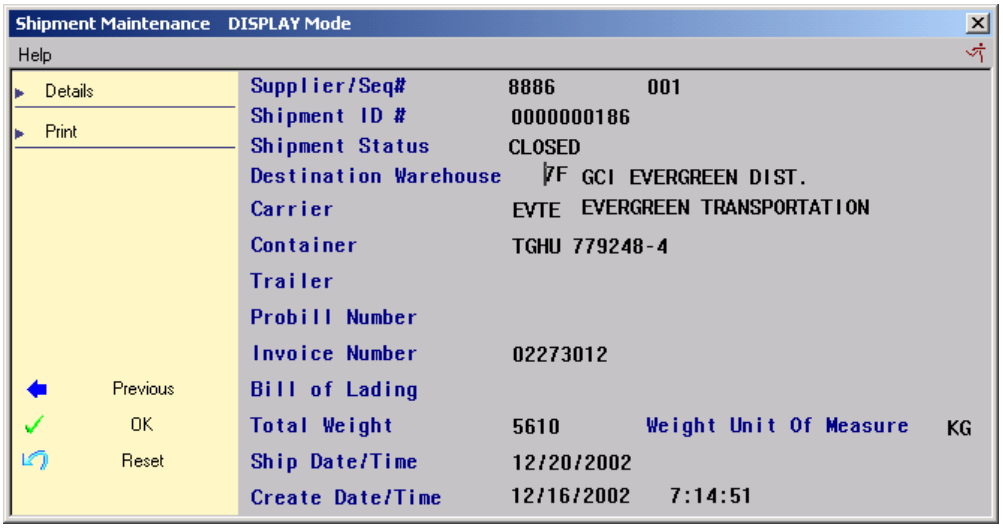
4. **Shipment** button

Select the Order/Item **you wish to see shipment information for and click Shipment button.**



Quantity = The summed PO UOM quantity from labels you have added to a shipment plus the previously shipped quantity for the PO/Line/Item.

Select the Shipment you wish to see shipment information. (See Shipment Functions menu for more information regarding this screen.)

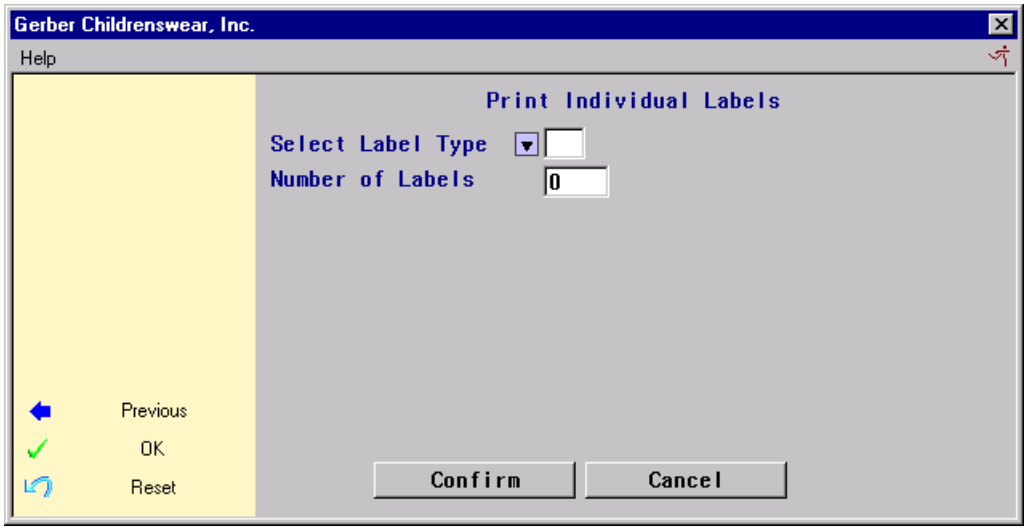


III. PO / Label Functions Menu
B. Print Labels

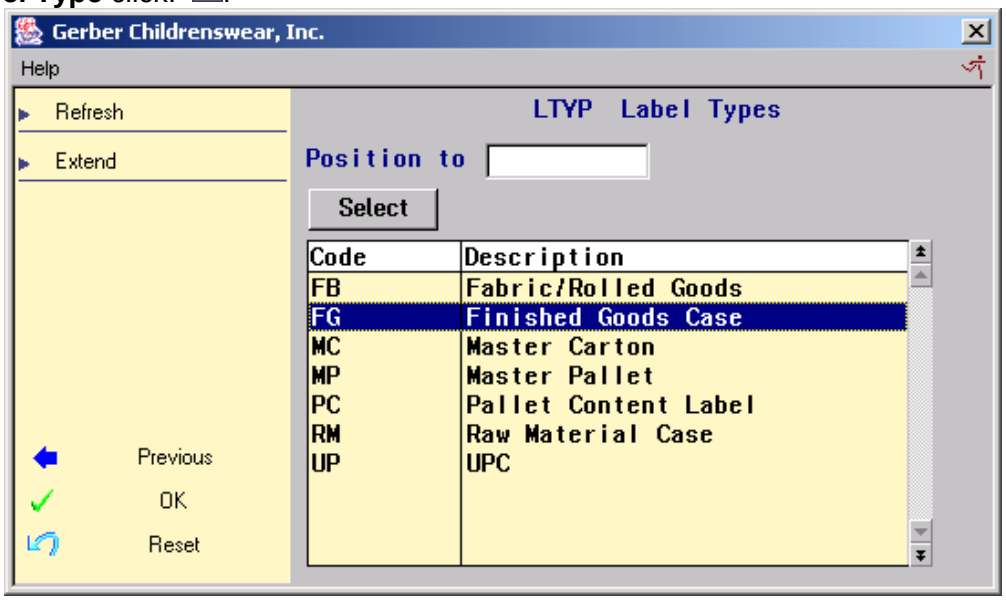
Select **Print Labels** from **PO / Label Functions** menu.

Print Labels is very much like selecting **Print Label** from **PO Inquiry**.

The screen will format will change based on the **Label Type** selected or keyed.



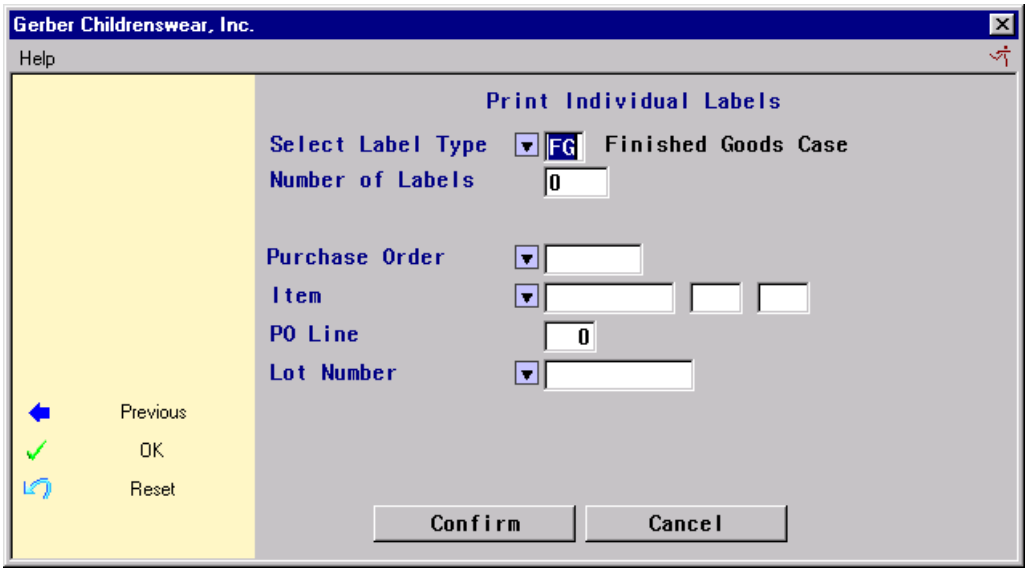
Select **Label Type** click: .



III. PO / Label Functions Menu
B. Print Labels

Label Type "FG": Finish Goods Label

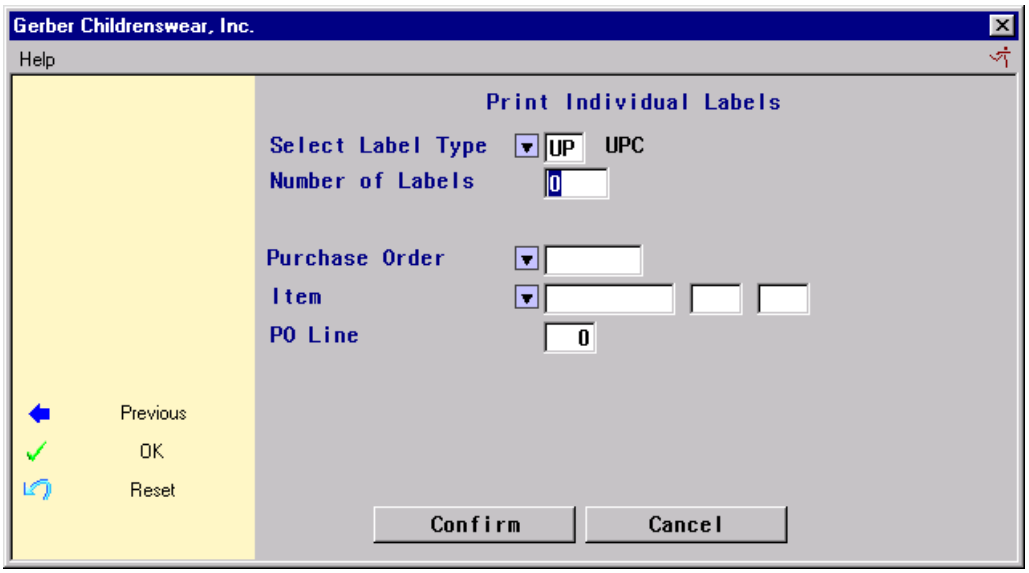
Notice that Purchase Order, Item, PO Line and Lot Number are now blank. If you Printed labels from the PO Inquiry screen this information is populated for you. You can key the information or select these items by clicking ▼ beside each of these. (See Label Printing in PO Inquiry for other screen instructions that follow)



III. PO / Label Functions Menu
B. Print Labels

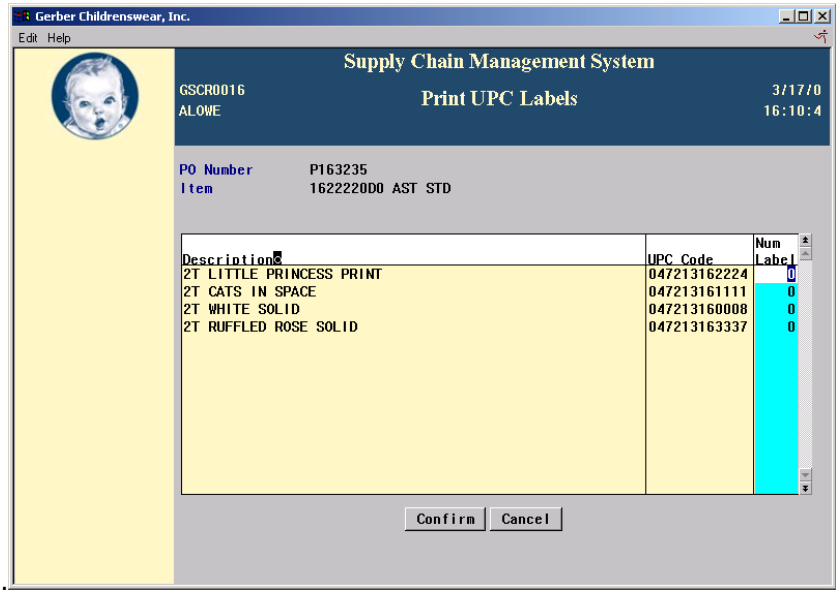
Label Type "UP": UPC Label

You must select Purchase Order/Item by clicking or print from PO Inquiry Screen. (See Label Printing in PO Inquiry for other screen instructions that follow.)



Label Type "UP": UPC Label (only valid for Finished Goods Supplier)

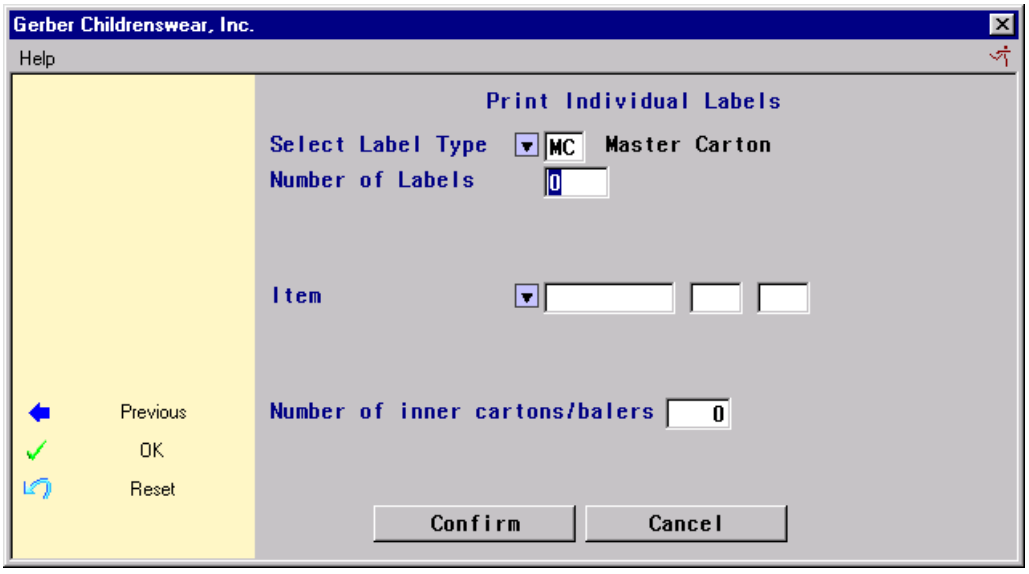
Key the number of UPC labels needed for item listed. Click on Confirm. Labels will print.



III. PO / Label Functions Menu
B. Print Labels

Label Type "MC": Master Carton Label (only valid for Finished Goods Supplier)

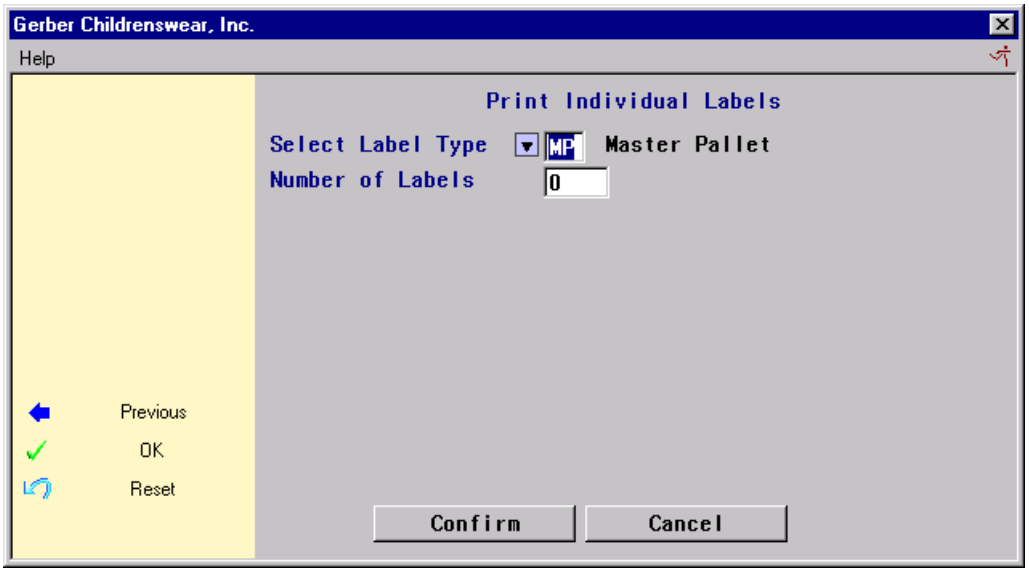
You must select the Item by clicking ▼ or print this label from PO Inquiry. The "Number of inner cartons/balers" is how many LPN case labels are in this Master Carton. (See Label Printing in PO Inquiry for other screen instructions that follow.)



III. PO / Label Functions Menu
B. Print Labels

Label Type "MP": Master Pallet Label

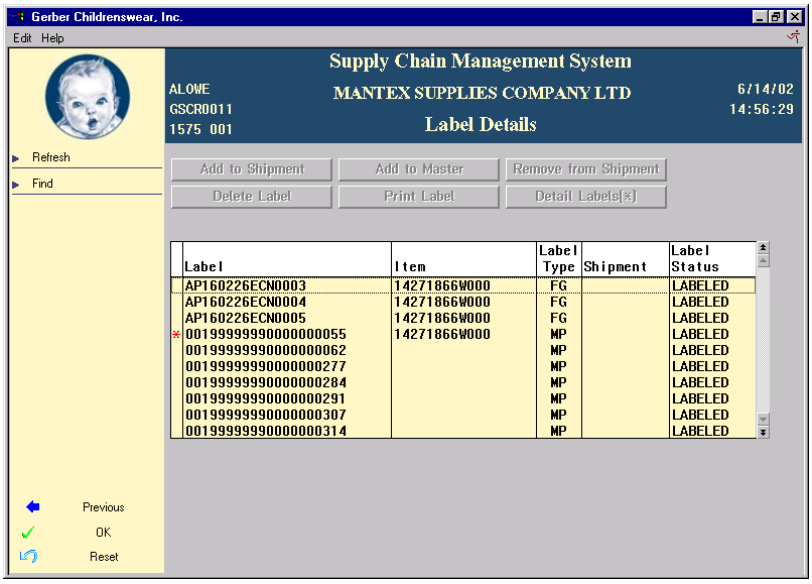
You must enter the Number of Labels. (See Label Printing in PO Inquiry for other screen instructions that follow.)



III. PO / Label Functions Menu
C. Label Details

Select Label Details from PO / Label Functions Menu. **(See: PO Inquiry – Label Details for more information.)**

The Find button on left of screen is a way to help you locate serial labels.

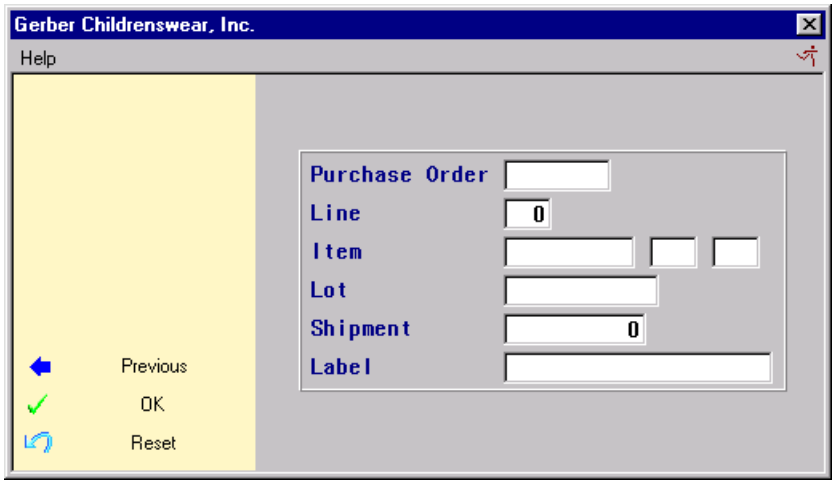


III. PO / Label Functions Menu
C. Label Details

Clicking on the “Find” button.

Note: If you use the “Find” you must Click on “Refresh” or “Previous” to see all serial label information again.

You can key any one or all of the fields.



Example: Key in Purchase Order number. In this example I keyed P168995.

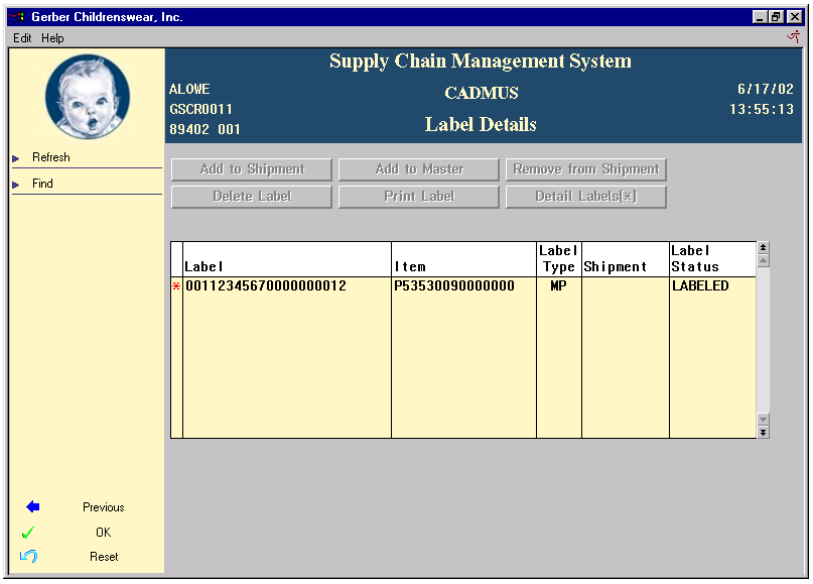
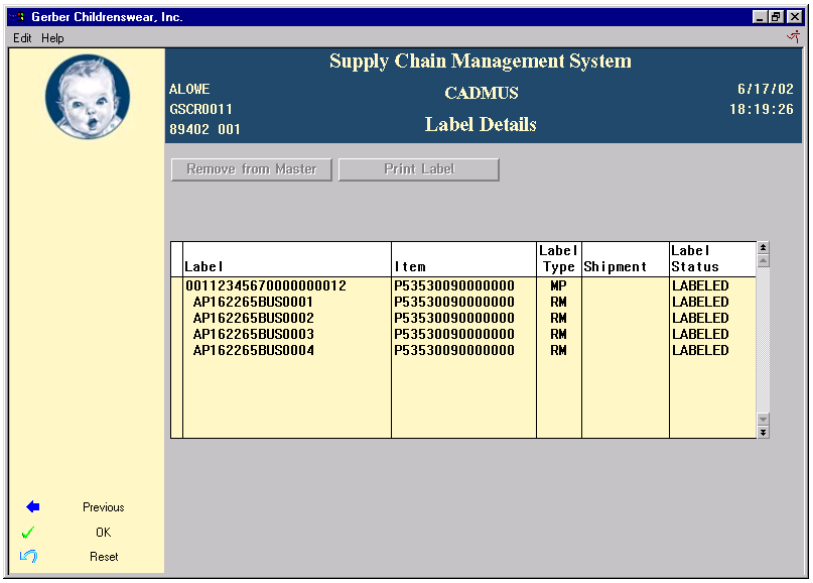
III. PO / Label Functions Menu
C. Label Details

In this example I keyed AP162265BUS0002 in the “Label” field.

Notice a “MP” label comes to screen and it is NOT the label keyed in the example. This is because the label AP162265BUS0002 is on a Master Pallet. See the red “*” in the left column. Select the Label and Click on Detail Labels(*) button.

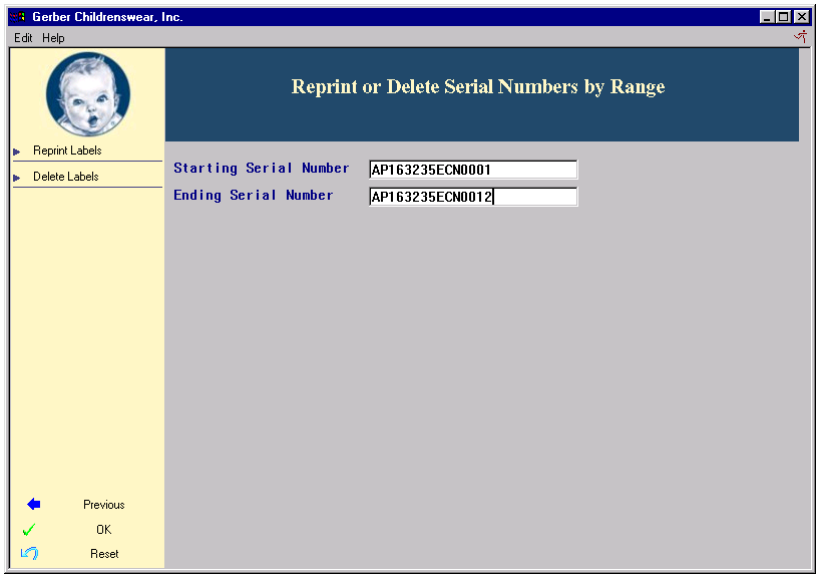


Note: Only the “Remove from Master” and “Print Label” buttons appear. This is because the labels are in a “LABELED” status. (See PO Inquiry Label Details for more information.)

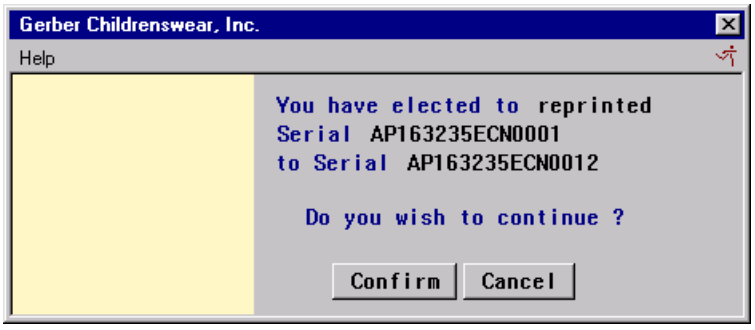


III. PO / Label Functions Menu
D. Reprint/Delete Labels by Range

You may key in a Starting and Ending Serial number to Reprint or Delete Labels. Once you key the serial numbers click Reprint Labels or Delete Labels button.



You will be asked to confirm your request.



III. PO / Label Functions Menu
D. Reprint/Delete Labels by Range

If within your request range any errors occurred the error will be displayed.

IV. Shipment Functions Menu

Shipment Functions Menu has eight functions.

IV. Shipment Functions Menu

A. Build Master Pallet

Note: Skip this section if you are reporting your shipment by item and quantity.

IV. Shipment Functions Menu

B. Build Master Carton

Note: Skip this section if you are reporting your shipment by item and quantity.

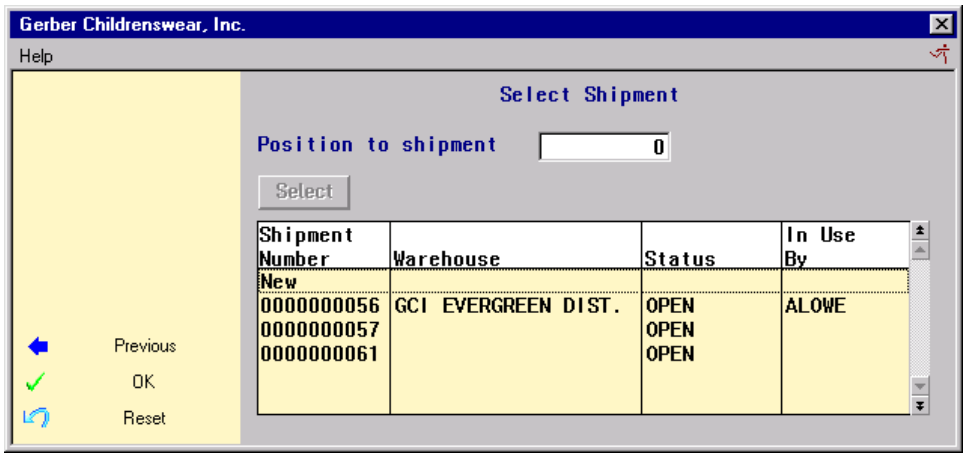
IV. Shipment Functions Menu

C. Build Shipment

To create a new Shipment, Select “new” and Click Select button.

To add items/serials to an existing shipment, Select the shipment number and click select button.

Note: “In Use By” column lets you know if someone is maintaining the shipment. You will not be allowed to select the same record.
You will get an error message “No update allowed when item-level shipment is active”. If the “In Use By” is not cleared and the user is not on the system, the user should sign on and select the Shipment Number for edit in “Shipment Maintenance” option. Then, Click Previous. This will clear the “in Use By”.



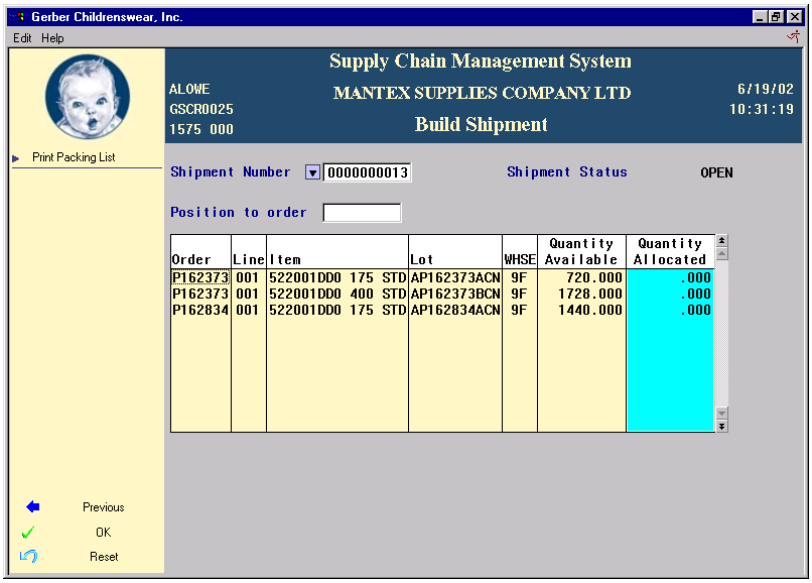
IV. Shipment Functions Menu

C. Build Shipment

You will get a screen showing all the available items for shipment. You will key the quantity you wish to ship for the PO/Line/Item/Lot.

Note:
The Quantity Available is summed PO UOM quantity from the labels you have printed for the PO/Line/Item.

The Quantity Allocated is the PO UOM quantity you are shipping.

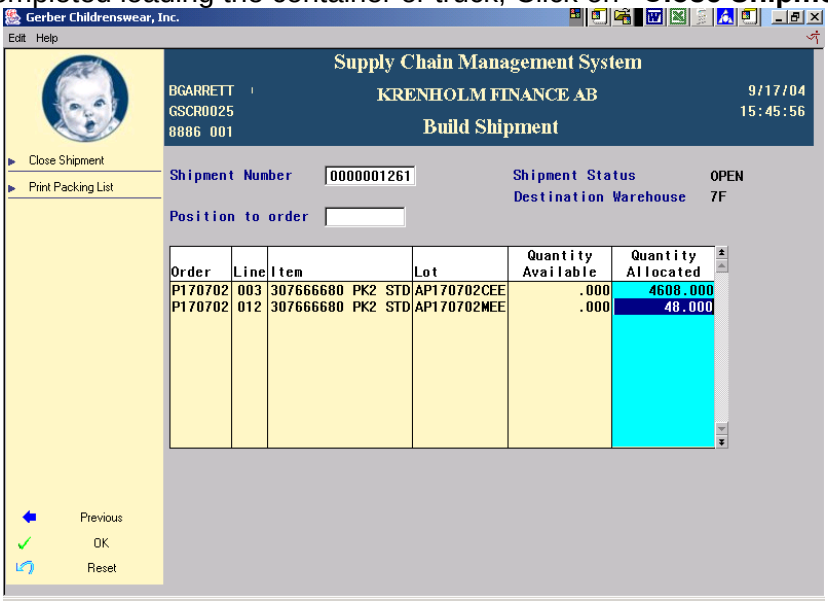


IV. Shipment Functions Menu

C. Build Shipment

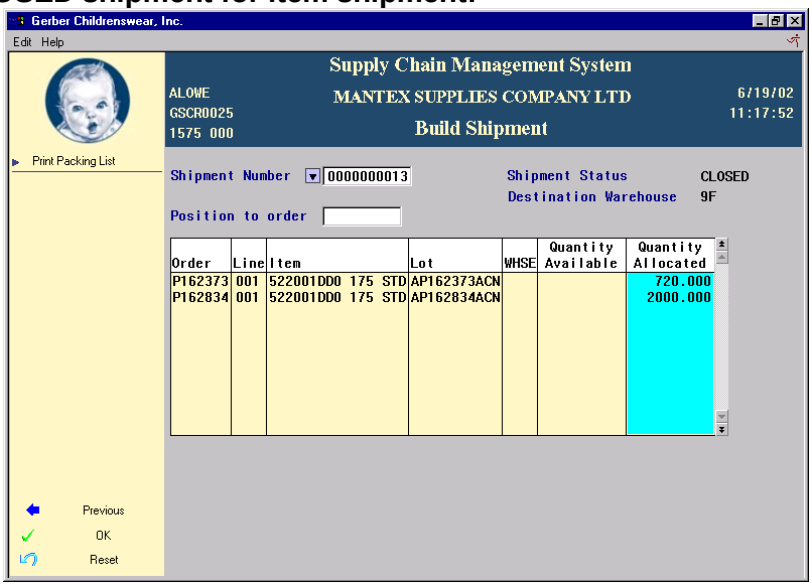
Closing Shipment

Once you have completed loading the container or truck, Click on **"Close Shipment**".



Note: The screen changed and the "Shipment Status" is CLOSED. You will NOT be allowed to change the shipment without opening the shipment See Shipment Maintenance Function.

Example of a CLOSED shipment for item shipment:

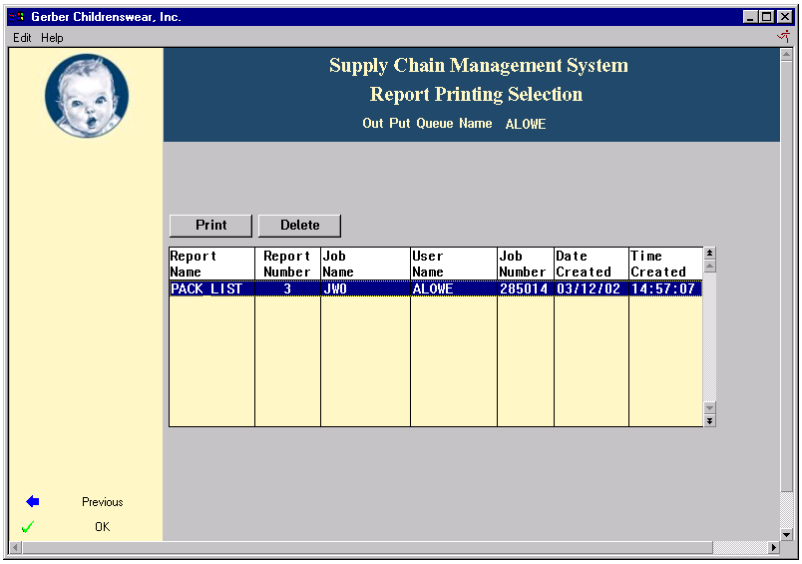


IV. Shipment Functions Menu

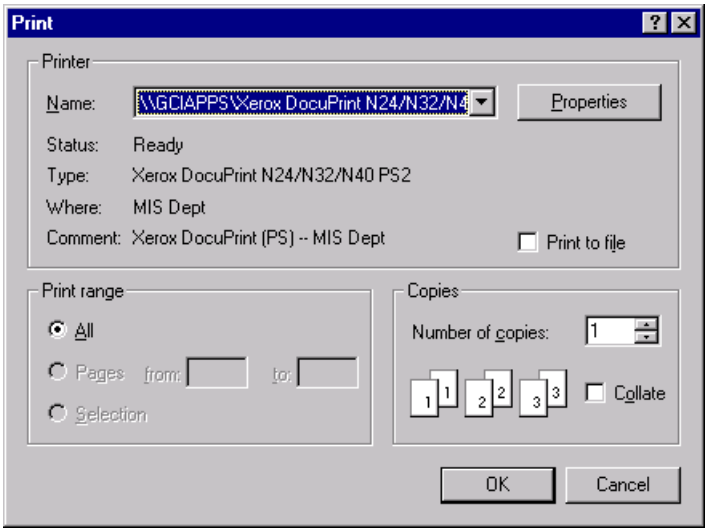
C. Build Shipment
Printing Packing List

You may print a packing list at anytime by Clicking on “Print Packing List”.

You will then be presented this screen. Select the Report Name “PACK_LIST” and click Print button.



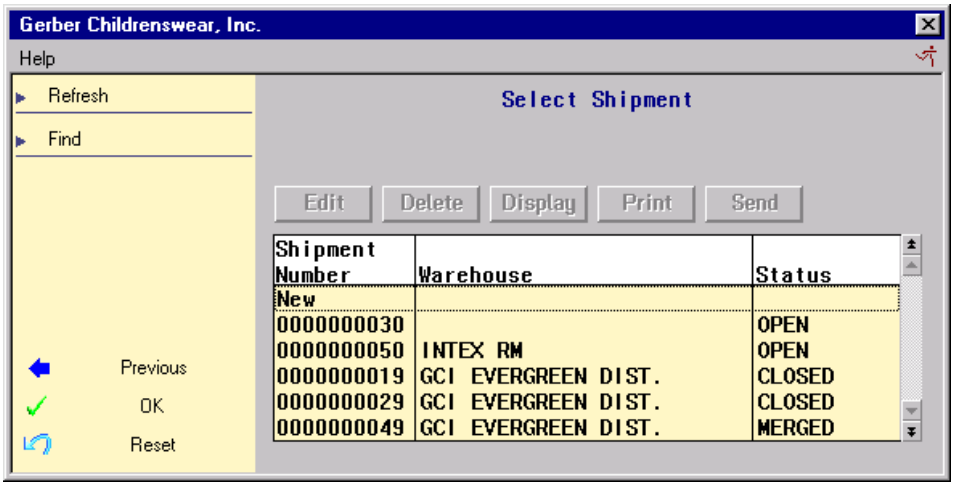
You will be asked to select a printer. This is any printer known to your windows environment other than the barcode printer. ***NOTE YOU WILL WANT TO CHANGE Properties to print Landscape.*** Click OK button.



IV. Shipment Functions Menu

D. Shipment Maintenance

Select the “Closed: shipment and Click Edit.

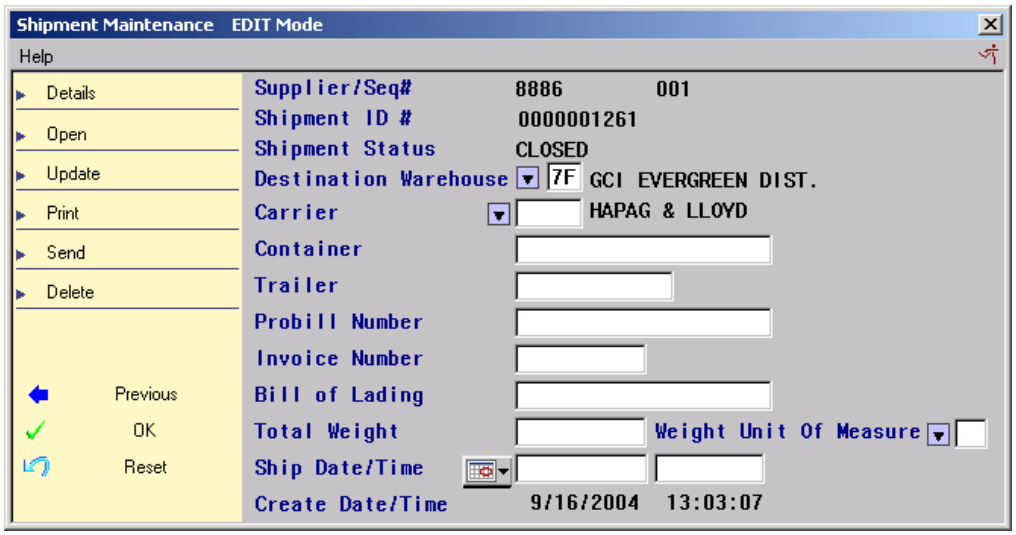


Note: Status column represents the Status of the Shipment. Possible Status’s are:
OPEN = Shipment is not complete
CLOSED = Shipment is complete
MERGED = Shipment has been merged with another shipment (see Merging shipments later in this section)
SENT = Shipment has been sent to Gerber Childrenswear, Inc.
DELETED = Shipment was deleted (shipment must be in OPEN or CLOSED status to delete)

IV. Shipment Functions Menu

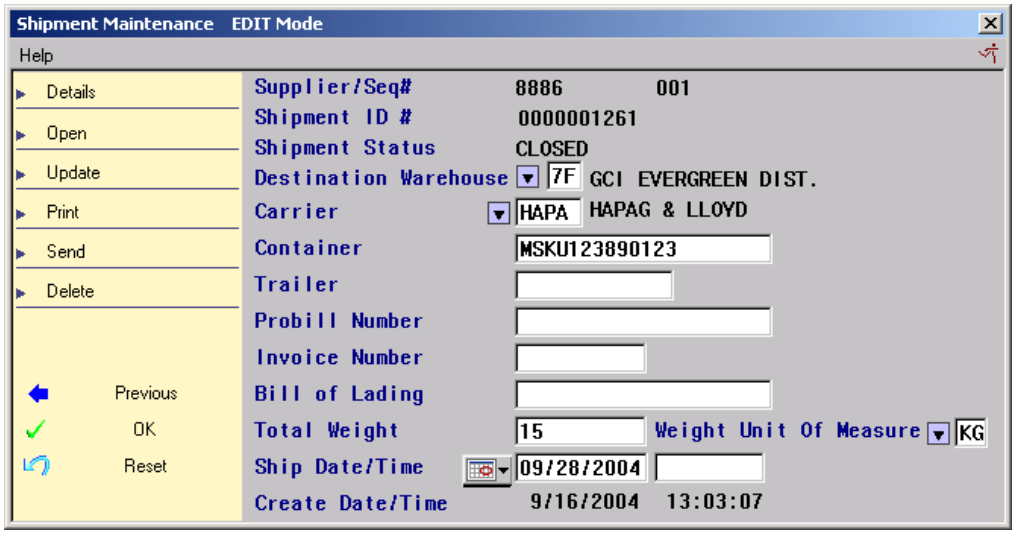
D. Shipment Maintenance

Before sending shipment information to Gerber Childrenswear, Inc. you will key in other information about the shipment on this screen. Mandatory fields are Carrier, Total Weight, Unit of Measure and Ship Date.



Once you have keyed information into fields, you **MUST Click "UPDATE"!!!**

You may print another packing list, or see Shipments Details (all the serials) on this shipment. When shipment is complete and you are ready to ship, **click on "Send".**



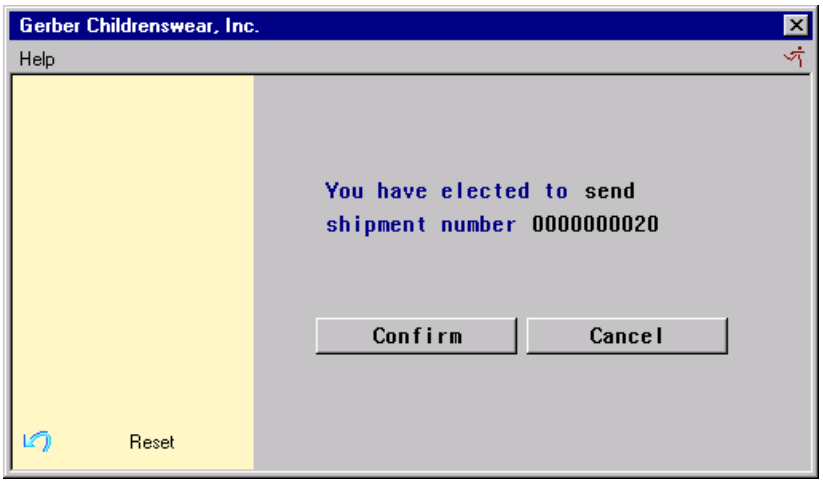
Note: This is where you would OPEN shipment to add and / or remove serials.

IV. Shipment Functions Menu

D. Shipment Maintenance

Click Confirm. This will send Gerber Childrenswear, Inc. the Advanced Shipment Notice (ASN).

Note: Print a copy of the Packing List and send with shipment.



E. Print Labels

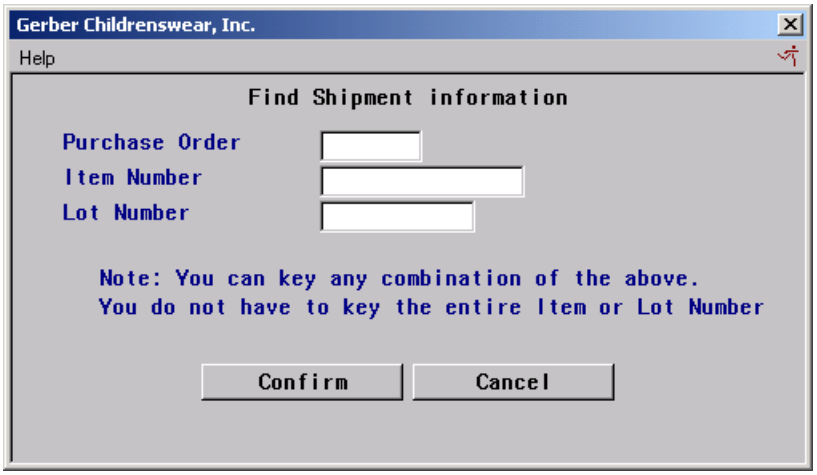
See:
III. PO/Label Functions Menu
B. Print Labels

F. Reprint/Delete Range

See:
III. PO/Label Functions Menu
D. Reprint/Delete Labels by Range

IV. Shipment Functions Menu

G. Find Shipment Info



This option gives you search capabilities by Purchase Order, Item or Lot Number. You can key either on to the three or any combination of the three. If you choose to key Item or Lot you may key the entire item or lot number are any part of it.

EXAMPLE 1:

User keys P163761 in Purchase Order field

If you wish to shipment detail information, click the item and click shipment.

If you wish to sort by Lot number, Click on Sort by Lot.

VII. Checklist for Vendor Compliance

A. Acquire and set-up Hardware / Software Requirements for SCM.

B. Work with your Gerber Childrenswear, Inc. buyer to identify all shipping locations.

C. Fill out ***Supplier User Security Form*** for every employee who is designated as a SCM user.

D. Fill out ***Confidentiality and Non-Disclosure Agreement*** for every employee who is designated as a SCM user.

E. Gerber Sourcing creates test PO's in SCM for vendor testing.

F. **Print** UPC and UCC (LPN) **Labels** using SCM.

G. Fax labels to Beth Garrett at 864–627–3627 for initial approval, then follow-up with the current requirements for label approval.

H. **Build** three (3) **Shipments** using SCM, representing three (3) different containers.

I. **Send** three (3) **Shipments (ASN)** (not actual finished goods shipments) using SCM to GCI.

J. GCI moves vendor to the production environment.
